## **Thailand Summit Brings Together Key Players in SE Asia's Auto Manufacturing**

Ringier Events Southeast Asia is set to hold the first **2024 ASEAN Advanced Automotive Manufacturing Summit - EV Solutions & Automation Production on June 13-14 at Hotel Nikko Amata City in Chonburi, Thailand**. This international event focuses on Thailand's fast-growing automotive manufacturing sector, which has emerged as a significant force in the Southeast Asian region.

To date, Thailand has attracted numerous global automotive manufacturers, solidifying its position as one of the largest automotive production hubs in the Asian region. The country has projected total vehicle production to reach more than 2.4 million units this year and with current thrust to intensify electric vehicles (EVs) production. Chonburi, a province in the eastern part of Thailand plays a key role in the automotive manufacturing industry as it is home to many production plants of both domestic and foreign car makers, such as Mitsubishi, MG, and Valeo.Chonburi.

Organized by Ringier Events, the **2024 ASEAN Advanced Automotive Manufacturing Summit - EV Solutions & Automation Production** brings together foreign and Thailand-based manufacturing professionals and expert speakers in the fields of automobile, auto parts and components manufacturing in a 2-day of information-packed discussions and business networking.
